## IT IS BEST IN STATE

SHORT COURSE HERE COVERS  
WIDEST RANGE OF SUBJECTS.

## LARGEST IN ATTENDANCE

Instructors in Charge Much Pleased  
With Work Here—One Hundred  
Attended Night Lecture.

The course this week at Maryville is the biggest and best one in the state, according to Prof. Trowbridge and Prof. Hutchinson of Missouri state university. The course of lectures is more complete and covers a wider range of subjects than any other place in the state, and is being better attended. They were much surprised at the attendance at Tuesday's session, on account of a big snow storm, there being 150 present. Great interest is being taken by those enrolled.

S. M. Jordan, the corn man, arrived Tuesday morning and delivered his first lecture at 11 a. m.

This morning's program was opened at 9 o'clock by Prof. C. B. Hutchinson, by an instructive discourse on soil management. His lecture was a continuation of his yesterday's talk, and had to do with the conservation of the fertility of the soil. He says that if we do nothing more we at least should preserve the resources which we have, and strive when possible to increase them. He was followed by Prof. Trowbridge in his talk on ensilage and stock feeding, dealing with the superiority of ensilage as a stock food and taking up the problems which every stock feeder must confront. Mr. Hutchinson spoke again on the control of soil moisture. He was followed by Mr. Jordan on his favorite subject, corn. Mr. Jordan is one of the best authorities on corn in the middle west, and his lectures are always brimful of the things which the farmer ought to know about his main crop. All these lectures are of vital interest to the farmer, and the interest taken in them shows that there is something better in store for the farmer of tomorrow.

The afternoon sessions will be held downtown, at Gray's feed yard, and Prof. Trowbridge spoke this afternoon on stock judging.

Those in charge of the course have been very fortunate in securing some of the cattle from the C. D. Bellows Shorthorn herd for the afternoon demonstrations.

The Monday afternoon session of the branch short course opened up at 2 o'clock with a lecture on the up-keep of the soil by Prof. Hutchinson.

Prof. Trowbridge followed Prof. Hutchinson with a talk on the proper feeding of the different farm stock.

The number present in the afternoon was somewhat of an increase over the morning's class.

About one hundred members of the class gathered in the Normal auditorium Monday night to hear the lectures by Prof. Trowbridge and Prof. Hutchinson.

Prof. Hutchinson's subject was concerning the state university, and his lecture was illustrated with lantern slides. Prof. Trowbridge gave a general discussion of the agricultural interests of the state.

All of the night lectures for the branch short course will be held in the circuit court room at the court house this week. S. M. Jordan is the lecturer for Tuesday evening, and his

subject will be corn. The lecture will commence at 7:30 o'clock.

The Breeders' Gazette of Chicago, one of the leading farm papers in the country, had the following about Mr. Jordan:

One of the most interesting men in America is Sam Jordan of the farmers' institute staff. He is a striking resemblance in feature and expression to Abraham Lincoln—the same humorous way of telling a story that gets the sympathy of his audience and points a moral as well; the same love of his people and a desire to help them. Well do I know the weary road that he travels, yet such a man can do incalculable good. He is a man sincerely loved in Missouri. His teaching is eminently practical throughout.

He begins work this week for that house in Missouri, and is one of five traveling salesmen for that house in Missouri. His Condition is Still Serious, However, and His Physicians Not Confident of His Recovery.

Pierce Fleming of Graham, who is still seriously ill of burns he received when the residence of his father, Thomas E. Fleming, was burned to the ground, is considered in better condition Tuesday by his physicians. The other members of the family, Mr. and Mrs. T. E. Fleming and Mrs. Pierce Fleming, are also better. All were threatened with brain fever the last few days, but that danger is now averted, it is thought. Dr. W. H. Brown of Maryville is staying with the Fleming family and will remain until all danger is past.

## A GREAT DAY THERE FOR FIVE MILE LAW

PICKERING ENTERTAINED THE MULTITUDES SATURDAY.

## \$644.60 IN STREET SALE

Many Won Prizes in Races and Guessing Contests—Local Option Election Helped Swell Crowd.

Saturday was a great day in Pickering and the largest crowd that has been in that town for some time was there. Nearly every one in Union township, some from Polk and others from Hopkins were there, and it is said that all of the fun you ever saw they had it, and they didn't seem to care for mud or anything.

A monthly sale was held that day by Col. J. R. Brauger, and in addition to this there were a number of athletic events, such as races, guessing contests, etc. The sale on the street, amounted to \$644.60. Mr. Sommerville, the principal of the Pickering high school, acted as clerk of the sale. And they say that it was also dry there. There were only 43 votes for the wets, and the dries there are ashamed of them.

The W. C. T. U. gave a free dinner that was certainly a good one.

They had two foot races, one for gentlemen over 40 years old and one for the high school girls. The following are those that received prizes:

Arnie Moberley received \$1 for guessing jar of beans at Porterfield's barber shop.  
Mrs. Lucinda Hood received nine bolts of wall paper at Shuff's drug store for guessing the weight of same.  
Lafe Blanchard received a set of 1847 Rogers Bros.' tablespoons for guessing the number of beans in a jar at Alexander's restaurant.

Hazel Burks received \$2 in girls' foot race.

Stant Garten received hair cut and shave at Porterfield's barber shop. Mr. Garten thinks he is a regular whirlwind when it comes to a foot race.

Ethel Alexander received the \$7.50 rocker given away by Wray & Miller at the hardware and furniture store.

Mrs. Alonzo Fine received the sack of Famous No. 5 flour of Wolfers Mercantile company for guessing the number of nuts in a jar.

George Swaney received the half ton of coal at the office of M. F. Fakes, coal dealer, for guessing weight of coal.

J. E. Alexander received \$1 for guessing the time that the clock stopped at C. C. Wilson's barber shop.

Hugh Strong received \$1 and 162 pieces of candy at the office of D. H. McGinness, the coal dealer.

S. C. Johnson received the side of bacon for presenting the largest ear of corn at J. F. Hutchinson's meat market.

Miss Elsie Chambers received \$1 for guessing the number of pieces of candy in a bucket at John Young's restaurant.

Marie Burks received the sack of that famous Golden Sheaf flour at C. G. McMillen's grocery store for guessing nearest the majority of dry votes in the county.

June Swaney received three sacks of cement for having the lucky number at S. E. Yeager's cement block factory, on Main street.

Marie Burks, first prize; Hazel Burks, second prize, and George Crowson, third prize for best score card on horse owned by the liveryman, W. A. Burks.

But then, Pickering always does just what she advertises, and there was everything doing all the time, from start to finish. But it takes Pickering to do things up proper.

### A NUMBER OF HORSES DIED.

Poisoned, It is Thought, by Eating Mouldy Corn—Graves Lost Eight Head.

The farmers around Burlington Junction have lost about fifteen head of horses the past two weeks by being poisoned, it is thought, by eating mouldy corn. John R. Graves, a farmer living near the Junction, lost eight head.

Miss Lola Goforth visited in Bolckow over Sunday with her parents, Mr. and Mrs. J. H. Goforth.

LOCAL OPTION WORKERS TURN ATTENTION TO LEGISLATURE.

## SANG THE "DOXOLOGY"

When Election Result Was Telephoned to Pickering the Church Bell Was Rang to Let the People Know.

Herman W. Hull, chairman of the County Local Option association, and who had charge of the campaign in Nodaway county, is well pleased with the big majority that the temperance people secured in Saturday's election, and says that sooner than many think a county unit law or a five-mile limit will be passed by the state legislature for the state institutions, and then the entire county will be rid of saloons.

The statement of Mr. Hull, as written for the Democrat-Forum follows: "An election was brought on by the wets to determine whether Nodaway county should continue under local option. The petitions calling for such an election were dated September 11, one day before the expiration of the four years.

"This brought on the Maryville campaign, which resulted in a victory for license by 55 votes, the majority of four years ago being cut down 144 votes, only the Fourth ward in Maryville going wet. An election was ordered for the 10th of February in the county, which resulted in the county giving 1,739 majority for local option. It was thought that if Maryville went for license the whole county would do the same thing. All over the county a feeling of disappointment and chagrin that the Fourth ward politicians should presume to dictate the policy of the county from a money basis. The feeling of disappointment gave way to one of determination forever to settle the saloon question outside of Maryville, and all over the county men were found willing to spend their time and their money for the principles of sobriety, and the home. And when the day came the ladies served lunch to the voters in many localities, and everybody worked as never before.

"In the morning some were even fearful that the county might go wet, but from the headquarters in Maryville not a committee man could be found, and the reply came back: 'He is down at the election,' and the chairman knew it was safe.

"Then men began to guess as to the majority of the 'drys.' The indications pointed to 500—as much as before (663)—and the spirits of the people rose to 1,000, but no one ever dreamed that 1,739 would be reached.

"When the chairman telephoned the result to Pickering, some one caught the cord to the church bell and rang the good news to the country about. The management caught the spirit of the hour and a call for mass meetings over the county found a ready response, and 'Praise God from whom all blessings flow' filled every sanctuary.

"The first great object has been accomplished, but much remains.

"Let us not lose faith in our leaders. Maryville men have worked and are working as only such men can.

"Our county court is made up of men of the highest type, who are in full sympathy, but can only follow the law. If Maryville were to vote today we believe that it would go 'dry.'

"Now that local option is ours let the people see to it that no booze peddler disposes of his goods in your vicinity, and when election time comes, vote for the right kind of men.

"I desire to express my appreciation of the efficient manner in which the campaign was carried out. Victory was secured by co-operation and individual work.

"Let us be patient, and sooner than many think a county unit law will be passed, or a five-mile limit will be around all state institutions, and much of what we have wanted will be accomplished."

Miss Laura Ball returned to her home at Hopkins Monday, after a visit since Saturday with Mr. and Mrs. R. T. Hantz and Mr. and Mrs. W. T. Cabbage.

### INDICTED MEN WITHIN REACH

Arrests in Dynamite Conspiracy to Take Place Within Few Hours.

### STOPPED ON CANADIAN BORDER

Many Defendants Believed to be Located in Illinois and Missouri—Iron Workers Officials Holding Consultation.

Indianapolis, Feb. 13.—On the eve of the arrest of the men indicted in the dynamite conspiracy cases it is reported that the number of defendants would be 54.

Many officers in one labor union and one officer in each of two other unions are involved. It is understood that the defendants west of Salt Lake City, Utah, include only those whose names already have been mentioned in connection with prosecutions or indictments found on the Pacific coast, and that no individuals west of Salt Lake City not heretofore involved are under indictment here.

### Arrests in Missouri?

Many cities in Illinois and Missouri are said to be the points from which the federal authorities expect to receive reports of arrests. Most of the defendants, whose names have been kept secret, but who have been under federal espionage since the indictments were returned a week ago, are reported as now being within reach and, as the capias for the arrests have been delivered to United States marshals in the respective districts, it is believed the apprehension of the men practically will take place within a few hours.

### Kansas City Leader Indicted?

A labor leader in Boston, several each in New York, Cleveland and Detroit, at least five in Chicago, one each in Peoria, St. Louis, Kansas City, Mo., New Orleans, Philadelphia, Milwaukee, Hartford, Conn., Buffalo, Cincinnati, and about five men in Indianapolis are believed to be among those indicted.

Whether the arrests would take place today United States District Attorney Charles W. Miller refused positively to state, but it was learned that such was the plan mapped out by the government and that it would be carried out unless some unforeseen obstacle developed.

### Consult With Ryan.

Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, was at his headquarters, discussing with his officials reports that members of his union were included among those indicted, John T. Butler of Buffalo, first vice-president; Herbert S. Hockin of Detroit, second vice-president and acting secretary-treasurer, and Fred Sherman, business agent of the local union in Indianapolis, are among those who have consulted with Mr. Ryan. Mr. Hockin succeeded J. J. McNamara, the convicted dynamiter, as secretary-treasurer of the union.

Efforts to Stamp Out Missions Include Torture of Converts and Closing of Schools.

New York, Feb. 13.—Dr. Arthur J. Brown, president of the Presbyterian board of foreign missions in Washington to present to President Taft charges recently received from missionaries in Korea that Japan is making efforts to stamp out Christianity there. The torture of converts, closing of mission schools and interference with the work of the American missionaries of whom there are between 200 and 400 in Korea, mostly under the boards of foreign missions of the Methodist and Presbyterian churches, is charged.

### Standard for Bug Poisons.

Topeka, Feb. 13.—The state board of health is going to fix a standard for all the remedies that are guaranteed sure death to all forms of insect house pests. Prof. L. E. Sayre, drug analyst of the board, and his assistants are working on the market and many of them have been found to be real food for the bugs instead of poisons. When the standards for the bug destroyers are fixed then the goods must do the work they are advertised to do or get off the market.

### Stubbs for Senate.

Topeka, Feb. 13.—While Gov. Stubbs never has announced that he was a candidate for the United States senate, he has started the campaign against the re-election of Senator Curtis. The governor said that at the proper time he would announce his candidacy officially, and the reasons for it.

### GAS AND WATER MAINS BURSTED

Shock Was Like Earthquake; Hundreds Made Unconscious.

### PAVEMENT RAISED THREE FEET

Breaking of Six Foot Pipe Floods Basements and Causes Gas to Fill Apartments in Entire District.

New York, Feb. 13.—Hundreds of persons were overcome by gas, 17 valuable horses were drowned and 100 automobiles were demolished by the bursting of a six-foot water main at West Ninety-seventh street and West End avenue. The shock caused a leak in a three-foot gas main and the escaping fumes swept through the entire district.

The bursting of the water main was, in effect, a miniature earthquake. Great fissures were opened in the pavement and the center of Ninety-seventh street forced upward three feet.

### Swam in Zero Water.

The flood of water was first discovered in the basement of the Thedford garage where 30 horses were stabled. Peter Davy, a stable man, and Charles Weidig and W. S. Swain, policemen, doffed their clothes and with the temperature but little above zero swam from stall to stall, cutting the horses' halters.

The water rose almost to the ceiling and when the three men thought of their own safety they found 20 oat boxes piled against the door of the runway. By an almost superhuman effort they dislodged the boxes and pulled some of the horses out with them.

### Officers Speechless.

Davy fell in a faint. He was rushed to a hospital, where it was said he had only a slight chance of recovery. The policemen, so cold they were unable to speak, were assisted to their station.

The value of the horses drowned averaged \$500 each.

Three hundred automobiles were in the repair room below the street floor and a hundred of them were smashed to pieces. They were hurled against the wall by the rushing water and battered to splinters. An aeroplane which several chauffeurs had just completed, also was destroyed.

### Many Unconscious.

A score of apartment houses and private residences were filled with the escaping gas and policemen inspected every room in the district, carrying out many unconscious persons. The superintendent of the Moyock apartment was found overcome in the basement and ten persons were taken to hospitals from a rooming house.

When the police ordered the water supply cut off the engineers had to draw their fires to prevent their boilers from bursting and intense suffering from the cold was the result.

**CUSTOMS OFFICER SEIZED JEWELRY**

Shipped to Wife of Texas Banker, on Trial for Murder.

**STOPPED ON CANADIAN BORDER**

Held Awaiting Proof of Purchase and Ownership in U. S.—Sent by A. G. Boyce, Jr., Son of Murdered Man.

Crookston, Minn., Feb. 13.—Jewels to the value of \$52,000, shipped by express by A. G. Boyce, Jr., to Mrs. Lena Snead, wife of J. B. Snead, wealthy Amarillo, Tex., banker, on trial at Fort Worth, Tex., for the murder of Capt. A. C. Boyce, Sr., have been seized by the custom officer at St. Vincent, Minn., on the Canadian border.

The gems are being held by the customs officers, it is said, because a certain document, the nature of which has not been made known, but which, it is said, would complete the evidence that the jewels were purchased and owned in the United States, is lacking.

The jewels have been placed in the vault of the First National bank at St. Vincent, and if the necessary document is not forthcoming within a day or so they will be shipped to the custom officer at St. Paul for safekeeping.

**Makes New Problem.**

Fort Worth, Tex., Feb. 13.—The news of the seizure of Mrs. Snead's jewelry, expressed to her by A. G. Boyce, with whom she eloped, produced a new angle to the Snead murder entanglement. Boyce at one time was indicted for the alleged theft of jewels, but the indictment was quashed. The value of the jewelry is estimated by friends here at \$22,000.

**Trial Delayed.**

The trial of John Beal Snead, charged with the murder of Capt. A. G. Boyce, was temporarily interrupted when it was learned in the court room that a man named Taylor, a Confederate veteran, had committed suicide near an entrance to the court house. An hour later the prosecution resumed the cross-examination of William H. Atwell, the United States district attorney who had acted as Snead's attorney before the killing of Boyce.

Boynton of Pleasant Plains, D. N. Funk of McLean and P. S. Haner of Taylorville. This evening the stock men will hear an address by Dr. F. W. **NO "DOLLAR-A-DAY" PENSIONS**

SHERWOOD BILL REJECTED BY SENATE COMMITTEE.

Curtis of Kansas to Make Fight on Floor for Measure—Smoot Offers Substitute.

Washington, Feb. 13.—The Sherwood "dollar-a-day" pension bill was rejected by the senate committee on pensions. A measure, involving an annual expenditure of \$24,000,000, proposed as a substitute by Senator Smoot of Utah, was adopted. Senator Brown of Nebraska and Senator Curtis of Kansas gave notice that in the senate they would press the Sherwood bill as a substitute for the Smoot bill.

The Sherwood bill, according to the pension bureau, would cost about \$75,000,000 a year. The Smoot bill embodies provision to pension Civil war veterans, 62 years old, who served 90 days or more, and any Mexican veteran who served 60 days or more. The Mexican war veterans would receive \$30 a month.

The substitute bill makes these provisions for Civil war veterans: Ages 62 to 66, \$13 a month for 90 days' service up to \$16 for three years' service or more; ages 66 to 70, \$15 a month for 90 days' service and \$18 for 3 years' service; ages 70 to 75, \$18 a month for 90 days' service and \$24 for three years' service or more; ages more than 75 years, \$21 a month for 90 days' service and \$30 for three years' service.

"Why cry economy only when the soldier is involved?" Senator Kenyon of Iowa demanded in a speech in advocacy of the Sherwood bill.

Mr. Kenyon said the cost of living had increased as much for the soldier as for anyone else. He suggested there could be a saving of \$125,000 a year in the matter of mileage for senators and representatives and yet leave sufficient for traveling expenses.

**Oh, How I Itched!**

What long nerve-racking days of constant torture—what sleepless nights of terrible agony—itch—itch—itch, constant itch, until it seemed that I must tear off my very skin—then instant relief—my skin cooled, soothed and healed!

The very first drops of D.D.D. Prescription for Eczema stopped that awful itch instantly; yes, the very moment D.D.D. touched the burning skin the torture ceased. A 25c bottle proves it. D.D.D. has been known for years as the only absolutely reliable remedy, for it washes away the disease germs and leaves the skin as clear and healthy as that of a child.

All other drugists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute.

But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.

## IT IS BEST IN STATE

SHORT COURSE HERE COVERS  
WIDEST RANGE OF SUBJECTS.

## LARGEST IN ATTENDANCE

Instructors in Charge Much Pleased  
With Work Here—One Hundred  
Attended Night Lecture.

The course this week at Maryville is the biggest and best one in the state, according to Prof. Trowbridge and Prof. Hutchinson of Missouri state university. The course of lectures is more complete and covers a wider range of subjects than any other place in the state, and is being better attended. They were much surprised at the attendance at Tuesday's session, on account of a big snow storm, there being 150 present. Great interest is being taken by those enrolled.

S. M. Jordan, the corn man, arrived Tuesday morning and delivered his first lecture at 11 a. m. This morning's program was opened at 9 o'clock by Prof. C. B. Hutchinson, by an instructive discourse on soil management. His lecture was a continuation of his yesterday's talk, and had to do with the conservation of the fertility of the soil. He says that if we do nothing more we at least should preserve the resources which we have, and strive when possible to increase them. He was followed by Prof. Trowbridge in his talk on ensilage and stock feeding, dealing with the superiority of ensilage as a stock food and taking up the problems which every stock feeder must confront. Mr. Hutchinson spoke again on the control of soil moisture. He was followed by Mr. Jordan on his favorite subject, corn. Mr. Jordan is one of the best authorities on corn in the middle west, and his lectures are always brimful of the things which the farmer ought to know about his main crop. All these lectures are of vital interest to the farmer, and the interest taken in them shows that there is something better in store for the farmer of tomorrow.

The afternoon sessions will be held downtown, at Gray's feed yard, and Prof. Trowbridge spoke this afternoon on stock judging.

Those in charge of the course have been very fortunate in securing some of the cattle from the C. D. Bellows Shorthorn herd for the afternoon demonstrations.

The Monday afternoon session of the branch short course opened up at 2 o'clock with a lecture on the up-keep of the soil by Prof. Hutchinson.

Prof. Trowbridge followed Prof. Hutchinson with a talk on the proper feeding of the different farm stock. The number present in the afternoon was somewhat of an increase over the morning's class.

About one hundred members of the class gathered in the Normal auditorium Monday night to hear the lectures by Prof. Trowbridge and Prof. Hutchinson.

Prof. Hutchinson's subject was concerning the state university, and his lecture was illustrated with lantern slides. Prof. Trowbridge gave a general discussion of the agricultural interests of the state.

All of the night lectures for the branch short course will be held in the circuit court room at the court house this week. S. M. Jordan is the lecturer for Tuesday evening, and his

subject will be corn. The lecture will commence at 7:30 o'clock.

The Breeders' Gazette of Chicago, one of the leading farm papers in the country, had the following about Mr. Jordan:

One of the most interesting men in America is Sam Jordan of the farmers' institute staff. He is a striking resemblance in feature and expression to Abraham Lincoln—the same humorous way of telling a story that gets the sympathy of his audience and points a moral as well; the same love of his people and a desire to help them. Well do I know the weary road that he travels, yet such a man can do incalculable good. He is a man sincerely loved in Missouri. His teaching is eminently practical throughout.

### FOR CHICAGO FIRM.

Dan Holmes Commenced Work This Week for Biggest Grocery House in the World.

Dan Holmes, until lately associated with his father, G. B. Holmes, in the grocery business in Maryville, under the firm name of the Holmes Grocery company, returned Saturday evening from Chicago, where he had been for a week at the wholesale house of Sprague-Warner. He begins work this week for that house in Missouri, and is one of five traveling salesmen for that house in Missouri. His territory will be Central and Northern Missouri, taking in Sedalia, Mexico, Jefferson City, Fulton, LaGrange, Canton and other good business towns. Mr. Holmes has a fine position and one for which he should be well fitted.

### PIERCE FLEMING BETTER.

His Condition is Still Serious, However, and His Physicians Not Confident of His Recovery.

Pierce Fleming of Graham, who is still seriously ill of burns he received when the residence of his father, Thomas E. Fleming, was burned to the ground, is considered in better condition Tuesday by his physicians. The other members of the family, Mr. and Mrs. T. E. Fleming and Mrs. Pierce Fleming, are also better. All were threatened with brain fever the last few days, but that danger is now averted. It is thought Dr. W. H. Brown of Maryville is staying with the Fleming family and will remain until all danger is past.

Mrs. T. A. Baughman of Camden Point, Mo., who has been visiting her daughter, Mrs. Frank Hall, and family, living west of Maryville, returned to her home Monday morning.

## A GREAT DAY THERE FOR FIVE MILE LAW

PICKERING ENTERTAINED THE  
MULTITUDES SATURDAY.

## \$644.60 IN STREET SALE

Many Won Prizes in Races and Guessing Contests—Local Option Election Helped Swell Crowd.

Saturday was a great day in Pickering and the largest crowd that has been in that town for some time was there. Nearly every one in Union township, some from Polk and others from Hopkins were there, and it is said that all of the fun you ever saw they had it, and they didn't seem to care for mud or anything.

A monthly sale was held that day by Col. J. R. Brantner, and in addition to this there were a number of athletic events, such as races, guessing contests, etc. The sale on the street, amounted to \$644.60. Mr. Sommerville, the principal of the Pickering high school, acted as clerk of the sale. And they say that it was also dry there. There were only 43 votes for the wets, and the dries there are ashamed of them.

The W. C. T. U. gave a free dinner that was certainly a good one.

They had two foot races, one for gentlemen over 40 years old and one for the high school girls. The following are those that received prizes:

Arnie Moberley received \$1 for guessing jar of beans at Porterfield's barber shop.  
Mrs. Lucinda Hood received nine bolts of wall paper at Shuff's drug store for guessing the weight of same.  
Lafe Blanchard received a set of 1847 Rogers Bros. tablepoons for guessing the number of beans in a jar at Alexander's restaurant.

Hazel Burks received \$2 in girls' foot race.  
Stant Garter received hair cut and shave at Porterfield's barber shop. Mr. Garter thinks he is a regular whirlwind when it comes to a foot race.

Ethel Alexander received the \$7.50 rocker given away by Wray & Miller at the hardware and furniture store.

Mrs. Alonzo Fine received the sack of Famous No. 5 flour of Wolfers Mercantile company for guessing the number of nuts in a jar.

George Swaney received the half ton of coal at the office of M. F. Fakes, coal dealer, for guessing weight of coal.

J. E. Alexander received \$1 for guessing the time that the clock stopped at C. C. Wilson's barber shop.

Hugh Strong received \$1 and 162 pieces of candy at the office of D. H. McGinness, the coal dealer.

S. C. Johnson received the side of bacon for presenting the largest ear of corn at J. F. Hutchison's meat market.

Miss Elsie Chambers received \$1 for guessing the number of pieces of candy in a bucket at John Young's restaurant.

Marie Burks received the sack of that famous Golden Sheaf flour at C. G. McMillen's grocery store for guessing nearest the majority of dry votes in the county.

June Swaney received three sacks cement for having the lucky number at S. E. Yeager's cement block factory, on Main street.

Marie Burks, first prize; Hazel Burks, second prize, and George Crowson, third prize for best score card on horse owned by the Iveryman, W. A. Burks.

But then, Pickering always does just what she advertises, and there was everything doing all the time, from start to finish. But it takes Pickering to do things up proper.

### A NUMBER OF HORSES DIED.

Poisoned, It is Thought, by Eating Mouldy Corn—Graves Lost Eight Head.

The farmers around Burlington Junction have lost about fifteen head of horses the past two weeks by being poisoned, it is thought, by eating mouldy corn. John R. Graves, a farmer living near the Junction, lost eight head.

Miss Lola Goforth visited in Bolckow over Sunday with her parents, Mr. and Mrs. J. H. Goforth.

LOCAL OPTION WORKERS TURN  
ATTENTION TO LEGISLATURE.

## SANG THE "DOXOLOGY"

When Election Result Was Telephoned to Pickering the Church Bell Was Rang to Let the People Know.

Herman W. Hull, chairman of the County Local Option association, and who had charge of the campaign in Nodaway county, is well pleased with the big majority that the temperance people secured in Saturday's election, and says that sooner than many think a county unit law or a five-mile limit will be passed by the state legislature for the state institutions, and then the entire county will be rid of saloons.

The statement of Mr. Hull, as written for the Democrat-Forum follows: "An election was brought on by the wets to determine whether Nodaway county should continue under local option. The petitions calling for such an election were dated September 11, one day before the expiration of the four years.

"This brought on the Maryville campaign, which resulted in a victory for license by 55 votes, the majority of four years ago being cut down 144 votes, only the Fourth ward in Maryville going wet. An election was ordered for the 10th of February in the county, which resulted in the county giving 1,739 majority for local option. It was thought that if Maryville went for license the whole county would do the same thing. All over the county a feeling of disappointment and chagrin that the Fourth ward politicians should presume to dictate the policy of the county from a money basis. The feeling of disappointment gave way to one of determination forever to settle the saloon question outside of Maryville, and all over the county men were found willing to spend their time and their money for the principles of sobriety, and the home. And when the day came the ladies served lunch to the voters in many localities, and everybody worked as never before.

"In the morning some were even fearful that the county might go wet, but from the headquarters in Maryville not a committeeman could be found, and the reply came back: 'He is down at the election,' and the chairman knew it was safe.

"Then men began to guess as to the majority of the 'drys.' The indications pointed to 500—as much as before (663)—and the spirits of the people rose to 1,000, but no one ever dreamed that 1,739 would be reached.

"When the chairman telephoned the result to Pickering, some one caught the cord to the church bell and rang the good news to the country about. The management caught the spirit of the hour and a call for mass meetings over the county found a ready response, and 'Praise God from whom all blessings flow' filled every sanctuary.

"The first great object has been accomplished, but much remains.

"Let us not lose faith in our leaders. Maryville men have worked and are working as only such men can.

"Our county court is made up of men of the highest type, who are in full sympathy, but can only follow the law. If Maryville were to vote today we believe that it would go 'dry'.

"Now that local option is ours let the people see to it that no booze peddler disposes of his goods in your vicinity, and when election time comes, vote for the right kind of men.

"I desire to express my appreciation of the efficient manner in which the campaign was carried out. Victory was secured by co-operation and individual work.

"Let us be patient, and sooner than many think a county unit law will be passed, or a five-mile limit will be around all state institutions, and much of what we have wanted will be accomplished."

Miss Laura Ball returned to her home at Hopkins Monday, after a visit since Saturday with Mr. and Mrs. R. T. Hantz and Mr. and Mrs. W. T. Cabbage.

## INDICTED MEN WITHIN REACH

Arrests in Dynamite Conspiracy to Take Place Within Few Hours.

### STOPPED ON CANADIAN BORDER

Many Defendants Believed to be Located in Illinois and Missouri—Iron Workers Officials Holding Consultation.

Indianapolis, Feb. 13.—On the eve of the arrest of the men indicted in the dynamite conspiracy cases it is reported that the number of defendants would be 54.

Many officers in one labor union and one officer in each of two other unions are involved. It is understood that the defendants west of Salt Lake City, Utah, include only those whose names already have been mentioned in connection with prosecutions or indictments found on the Pacific coast, and that no individuals west of Salt Lake City now heretofore involved are under indictment here.

Arrests in Missouri? Many cities in Illinois and Missouri are said to be the points from which the federal authorities expect to receive reports of arrests. Most of the defendants, whose names have been kept secret, but who have been under federal espionage since the indictments were returned a week ago, are reported as now being within reach and, as the capias for the arrests have been delivered to United States marshals in the respective districts, it is believed the apprehension of the men practically will take place within a few hours.

Kansas City Leader Indicted? A labor leader in Boston, several each in New York, Cleveland and Detroit, at least five in Chicago, one each in Peoria, St. Louis, Kansas City, Mo., New Orleans, Philadelphia, Milwaukee, Hartford, Conn., Buffalo, Cincinnati, and about five men in Indianapolis are believed to be among those indicted.

Whether the arrests would take place today United States District Attorney Charles W. Miller refused positively to state, but it was learned that such was the plan mapped out by the government and that it would be carried out unless some unforeseen obstacle developed.

Consult With Ryan. Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, was at his headquarters, discussing with his officials reports that members of his union were included among those indicted. John T. Butler of Buffalo, first vice-president; Herbert S. Hockin of Detroit, second vice-president and acting secretary-treasurer, and Fred Sherman, business agent of the local union in Indianapolis, are among those who have consulted with Mr. Ryan. Mr. Hockin succeeded J. J. McNamara, the convicted dynamiter, as secretary-treasurer of the union.

Fall Kills Sedalia Man. Sedalia, Mo., Feb. 13.—Edward Hoss, a Pettis county farmer, 60 years old, brother of Granville and Ollie Hoss, lawyers at Nevada, Mo., was killed by falling from the second story of engine house No. 2, where he was sleeping.

## JAPAN OPPOSES CHRISTIANITY

Efforts to Stamp Out Missions Include Torture of Converts and Closing of Schools.

New York, Feb. 13.—Dr. Arthur J. Brown, president of the Presbyterian board of foreign missions is in Washington to present to President Taft charges recently received from missionaries in Korea that Japan is making efforts to stamp out Christianity there. The torture of converts, closing of mission schools and interference with the work of the American missionaries of whom there are between 200 and 400 in Korea, mostly under the boards of foreign missions of the Methodist and Presbyterian churches, is charged.

### Standard for Bug Poisons.

Topeka, Feb. 13.—The state board of health is going to fix a standard for all the remedies that are guaranteed sure death to all forms of insect house pests. Prof. L. E. Sayre, drug analyst of the board, and his assistants are working on the various exterminators now on the market and many of them have been found to be real food for the bugs instead of poisons. When the standards for the bug destroyers are fixed then the goods must do the work they are advertised to do or get off the market.

### Stubbs for Senate.

Topeka, Feb. 13.—While Gov. Stubbs never has announced that he was a candidate for the United States senate, he has started the campaign against the re-election of Senator Curtis. By doing that he announced his own candidacy for the place because of the expression of thousands of Kansas people that they were expecting him to run against the re-election of Senator Curtis. The governor said that at the proper time he would announce his candidacy officially, and the reasons for it.

## GAS AND WATER MAINS BURSTED

Shock Was Like Earthquake; Hundreds Made Unconscious.

### PAVEMENT RAISED THREE FEET

Breaking of Six Foot Pipe Floods Basements and Causes Gas to Fill Apartments in Entire District.

New York, Feb. 13.—Hundreds of persons were overcome by gas, 17 valuable horses were drowned and 100 automobiles were demolished by the bursting of a six-foot water main at West Ninety-seventh street and West End avenue. The shock caused a leak in a three-foot gas main and the escaping fumes swept through the entire district.

The bursting of the water main was, in effect, a miniature earthquake. Great fissures were opened in the pavement and the center of Ninety-seventh street forced upward three feet.

Swam in Zero Water. The flood of water was first discovered in the basement of the Thedford garage where 30 horses were stalled. Peter Davy, a stable man, and Charles Weidig and W. S. Swain, policemen, doffed their clothes and with the temperature but little above zero swam from stall to stall, cutting the horses' halters.

The water rose almost to the ceiling and when the three men thought of their own safety they found 20 oat boxes piled against the door of the runway. By an almost superhuman effort they dislodged the boxes and pulled some of the horses out with them.

Officers Speechless. Davy fell in a faint. He was rushed to a hospital, where it was said he had only a slight chance of recovery. The policemen, so cold they were unable to speak, were assisted to their station.

The value of the horses drowned averaged \$500 each.

Three hundred automobiles were in the repair room below the street floor and a hundred of them were smashed to pieces. They were hurled against the wall by the rushing water and battered to splinters. An aeroplane which several chauffeurs had just completed, also was destroyed.

### Many Unconscious.

A score of apartment houses and private residences were filled with the escaping gas and policemen inspected every room in the district, carrying out many unconscious persons. The superintendent of the Moyocke apartment was found overcome in the basement and ten persons were taken to hospitals from a rooming house.

When the police ordered the water supply cut off the engineers had to draw their fires to prevent their boilers from bursting and intense suffering from the cold was the result.

### Broker a Suicide.

New York, Feb. 13.—Washington N. Seligman, a broker of this city, committed suicide by shooting himself in a room at the Hotel Gerald. In 1903 Mr. Seligman attempted to cut his throat.

**STOPPED ON CANADIAN BORDER**

Held Awaiting Proof of Purchase and Ownership in U. S.—Sent by A. G. Boyce, Jr., Son of Murdered Man.

Crookston, Minn., Feb. 13.—Jewelry to the value of \$62,000, shipped by express by A. G. Boyce, Jr., to Mrs. Lena Snead, wife of J. B. Snead, wealthy Amarillo, Tex., banker, on trial at Fort Worth, Tex., for the murder of Capt. A. C. Boyce, Sr., have been seized by the customs officer at St. Vincent, Minn., on the Canadian border.

The gems are being held by the customs officers, it is said, because a certain document, the nature of which has not been made known, but which, it is said, would complete the evidence that the jewels were purchased and owned in the United States, is lacking.

The jewels have been placed in the vault of the First National bank at St. Vincent, and if the necessary document is not forthcoming within a day or so they will be shipped to the customs officer at St. Paul for safekeeping.

**Makes New Problem.**

Fort Worth, Tex., Feb. 13.—The news of the seizure of Mrs. Snead's jewelry, expressed to her by A. G. Boyce, with whom she eloped, produced a new angle to the Snead murder entanglement. Boyce at one time was indicted for the alleged theft of jewels, but the indictment was quashed. The value of the jewelry is estimated by friends here at \$22,000.

**Trial Delayed.**

The trial of John Beal Snead, charged with the murder of Capt. A. G. Boyce, was temporarily interrupted when it was learned in the court room that a man named Taylor, a Confederate veteran, had committed suicide near an entrance to the court house.

An hour later the prosecution resumed the cross-examination of William H. Atwell, the United States district attorney who had acted as Snead's attorney before the killing of Boyce.

**NO "DOLLAR-A-DAY" PENSIONS**

SHERWOOD BILL REJECTED BY SENATE COMMITTEE.

Curtis of Kansas to Make Fight on Floor for Measure—Smoot Offers Substitute.

Washington, Feb. 13.—The Sherwood "dollar-a-day" pension bill was rejected by the senate committee on pensions. A measure, involving an annual expenditure of \$24,000,000, proposed as a substitute by Senator Smoot of Utah, was adopted. Senator Brown of Nebraska and Senator Curtis of Kansas gave notice that in the senate they would press the Sherwood bill as a substitute for the Smoot bill.

The Sherwood bill, according to the pension bureau, would cost about \$75,000,000 a year. The Smoot bill embodies provision to pension Civil war veterans, 62 years old, who served 90 days or more, and any Mexican veteran who served 60 days or more. The Mexican war veterans would receive \$30 a month.

The substitute bill makes these provisions for Civil war veterans: Ages 62 to 66, \$13 a month for 90 days' service up to \$16 for three years' service or more; ages 66 to 70, \$15 a month for 90 days' service and \$18 for 3 years' service; ages 70 to 75, \$18 a month for 90 days' service and \$24 for three years' service and more; ages more than 75 years, \$21 a month for 90 days' service and \$30 for three years' service.

"Why cry economy only when the soldier is involved?" Senator Kenyon of Iowa demanded in a speech in advocacy of the Sherwood bill.

Mr. Kenyon said the cost of living had increased as much for the soldier as for anyone else. He suggested there could be a saving of \$125,000 a year in the matter of mileage for senators and representatives and yet leave sufficient for traveling expenses.
